

# PDR RID Report

**Date Last Modified** 3/28/95

**Originator** Lynnes, Chris

**Phone No** 301-286-2260

**Organization** GSFC DAAC

**E Mail Address** lynnes@daac.gsfc.nasa.gov

**Document** Requirements Specification (DID304) for CSMS -

**Section** 304-CD-003-001  
6.4.2

**Page** 6-42

**Figure Table**

<b>RID ID</b>	<b>PDR</b>	226
<b>Review</b>	CSMS	
<b>Originator Ref</b>		
<b>Priority</b>	2	

**Category Name** Requirements

**Actionee** HAIS

**Sub Category**

**Subject** Support for SGI in DOF

**Description of Problem or Suggestion:**

At the end of this section, it says DOF will run on HP, DEC, IBM and SUN. SGI is not mentioned, yet most DAACs have considerable computing power sunk into SGI, and it is popular with science data processors.

**Originator's Recommendation**

1. Clarify if SGI is in fact excluded, and explain why (e.g., no DCE for SGI?)
2. Explain the implications of this exclusion for:
  - a. Use of SGI equipment in ECS
  - b. V0-V1 interoperability
  - c. DAAC-unique interfaces

**GSFC Response by:**

**GSFC Response Date**

**HAIS Response by:** Forman

**HAIS Schedule** 2/28/95

**HAIS R. E.** N. Hota

**HAIS Response Date** 2/28/95

SGI was not excluded, rather it was omitted there by mistake. The Requirements specification (DID304) will be corrected to include SGI in section 6.4.2.

**Status** **Closed**

**Date Closed** 3/28/95
